What does the **RGS standard** look like in DT?

Year group: Seven

Task: Create a Bug Box out of Pine using workshop equipment, tools and machinery.

Working towards

Working at

Greater depth

Home learning

I have been able to create a range of wooden joints, by looking at my **home learning**.

Theory notes

I have been able to look at my theory notes to pick the correct saw. This has resulted in straight joints using the **Tenon saw**.

Drawing

I have referred to my **manufacturing drawing**. This has resulted in very **small gaps** in the **joints**.

Videos

I re-watched a video to recall the cellar structure of wood. This has resulted in me sanding the **surfaces** with no **frayed**

Theory notes

I viewed my theory notes and drawings to differentiate between Softwood and Hardwood. This has resulted in me picking and cutting the most **sustainable material**.
