What does the **RGS standard** look like in English?

Year group: 8

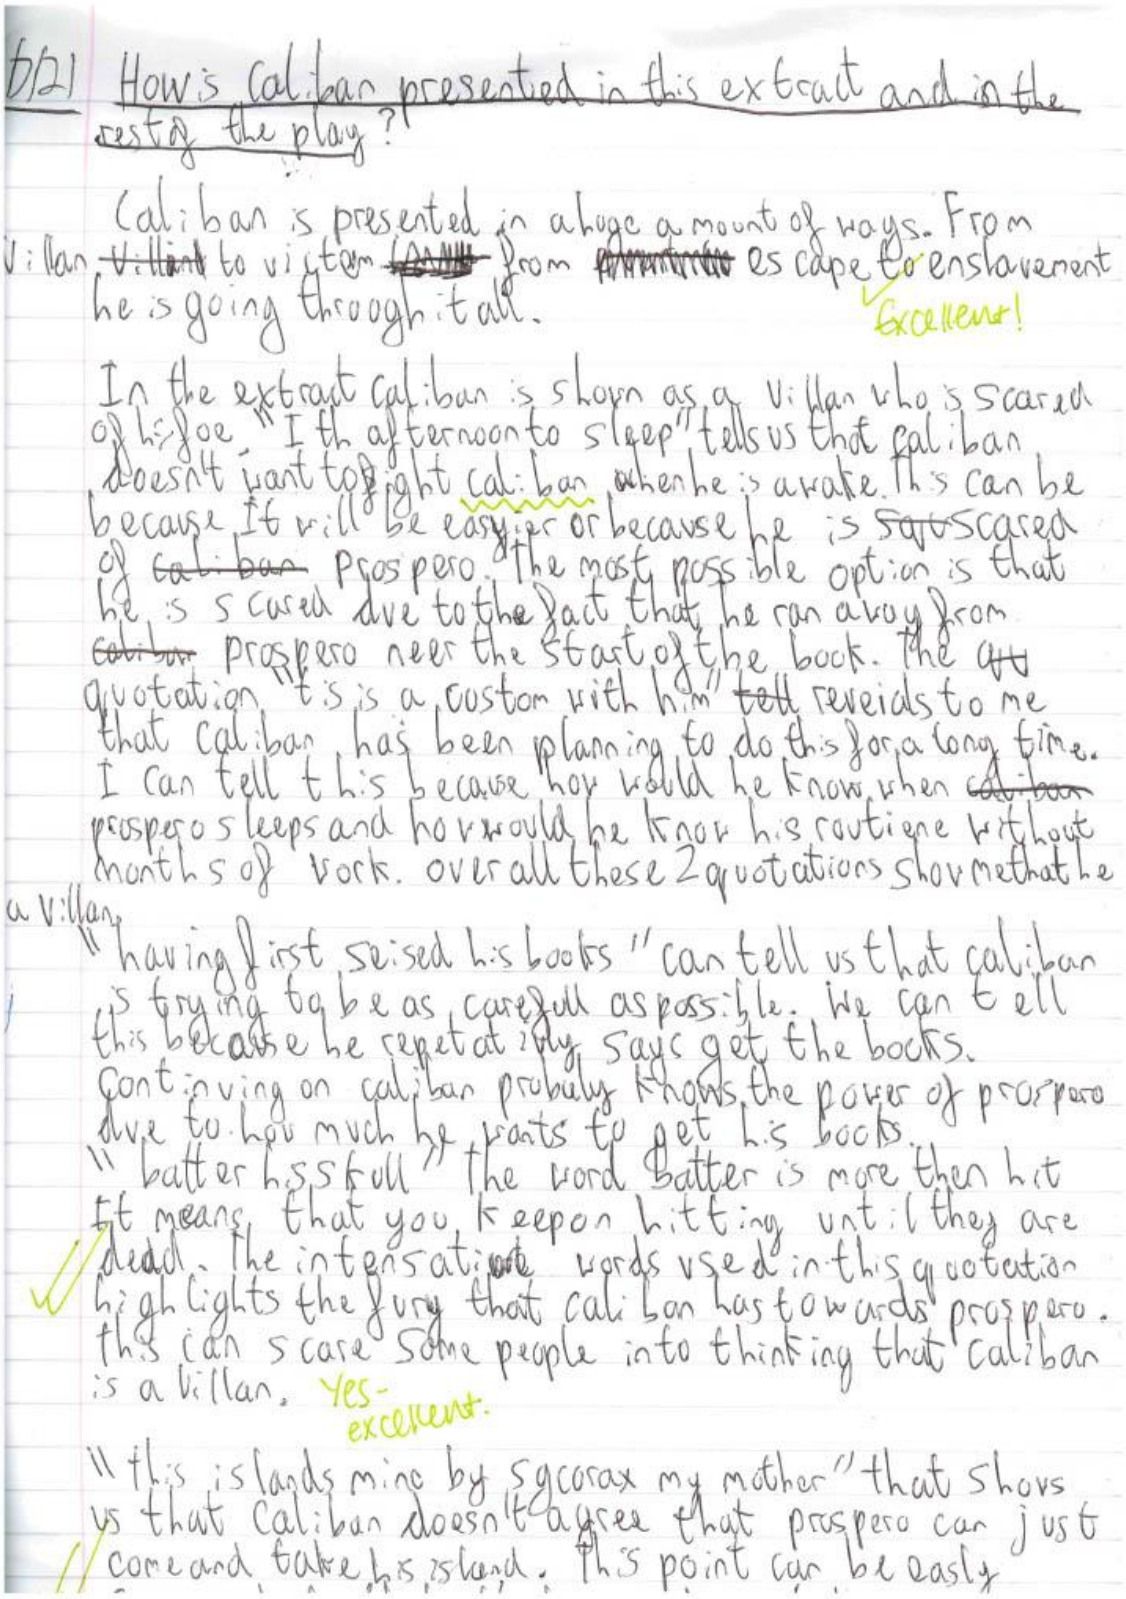
Task: How is Caliban presented in the extract and the play as a whole?

Clearly responds to the question

Clearly understands the character

Uses quotations and explains how they support ideas.

Identifies and explains key language or structural features.



6/21 How is Caliban presented in this extract and in the rest of the play?

Caliban is presented in a huge amount of ways. From villan to victim from escape to enslavement he is going through it all. Excellent!

In the extract Caliban is shown as a villan who is scared of his foe. "I th afternoon to sleep" tells us that caliban doesn't want to fight Caliban when he is awake. This can be because it will be easier or because he is scared of Caliban Prospero. The most possible option is that he is scared due to the fact that he ran away from Caliban prospero neer the start of the book. The quotation "tis is a custom with him" tell reveals to me that Caliban has been planning to do this for a long time. I can tell this because how would he know when Caliban prospero sleeps and how would he know his routine without months of work. overall these 2 quotations show me that he a villan.

"having first seized his books" can tell us that caliban is trying to be as careful as possible. We can tell this because he repeatedly says get the books. Continuing on caliban probably knows the power of prospero due to how much he wants to get his books.

"batter his skull" the word batter is more then hit it means that you keepon hitting until they are dead. The intensative words used in this quotation high lights the fury that caliban has towards prospero. This can scare some people into thinking that caliban is a villan. Yes- excellent.

"this is lands mine by sycorax my mother" that shows us that Caliban doesn't agree that prospero can just come and take his island. This point can be easly
