DEBATE TOPIC - Are disasters natural?

UNIT ENQUIRY - To what extent are diseases natural?

Lesson 1 - How well is malaria being managed?

1. Malaria is a disease spread by mosquitoes in tropical regions.

2. It has significant impacts on LICs.

3. Strategies aimed at reducing the spread of malaria are being developed.

Lesson 2 - How does geography affect people's nutrition?

1. Quality of nutrition is positively correlated with people's socio-economic status.

2. Deprived neighbourhoods are more likely to be located in food deserts, especially in the USA.

3. This means obesity levels are higher in areas with lower socio-economic backgrounds.

Lesson 3 - How is Botswana tackling HIV/AIDS?

1. HIV/AIDS is a disease that destroys your immune system.

2. HIV/AIDS mostly affectsLIC LICs in Sub-Saharan Africa.

3. Botswana is an example of a country that has successfully tackled its epidemic through good governance.
